## PROFESSIONAL SUMMARY

Passionate and detail-oriented Software Developer with strong experience in front-end and full-stack development. Skilled in building responsive web and mobile applications using modern technologies including React, Java, Spring Boot, Node.js, and Flutter. Experienced in enterprise-level systems such as POS, crop monitoring, and library management platforms. Focused on clean UI, scalable architecture, and efficient problem-solving.

## TECHNICAL SKILLS

### Programming Languages

- Java, JavaScript (ES6+), TypeScript, Python

### FRONT-END

- HTML5, CSS3, React, Next.js, React Native, JavaFX, Tailwind CSS, Bootstrap, Flutter

### BACK-END

- Spring Boot, Node.js, Express.js, RESTful APIs, JWT Authentication

### DATABASE & TOOLS

- Databases:** MySQL, MongoDB, Firebase.
- Version Control & Design:** GitHub, Figma, Canva.

## EXPERIENCE

### Software Development Intern

#### Sri Lanka Telecom (SLT)

 Colombo, Sri Lanka

 Internship Period (08/2025 – 02/2026)

- Assisted in the development and maintenance of software applications used in internal systems.
- Participated in designing, testing, and debugging application features under senior developer guidance.
- Worked with front-end and back-end components, following clean code and best practices.
- Integrated and tested RESTful APIs for data handling and system communication.
- Collaborated with cross-functional teams to understand real-world software development workflows.
- Gained exposure to enterprise-level systems, version control, and structured development processes.

---

## PROJECT EXPERIENCE

### Crop Monitoring System

**Full-Stack Developer | Green Shadow (Pvt) Ltd**  [GitHub](#)

- Developed an enterprise-level web application to manage large-scale agricultural operations.
- Implemented modules for crop cultivation, resource allocation, staff management, vehicles, equipment, and monitoring logs.
- Designed role-based access control for secure system usage.
- Technologies: HTML, CSS, JavaScript, MySQL

### Library Management System (Web)

**Full-Stack Developer**  [GitHub](#)

- Built a complete library management system for educational institutions.
- Features include book management, member handling, borrowing records, and role-based access.
- Technologies: TypeScript, JavaScript, CSS, MySQL

### Book Store / Library Management App (Mobile)

**Mobile Application Developer**  [GitHub](#)

- The Library Management System is an enterprise-level mobile application built with Flutter, designed to streamline and modernize library operations for educational institutions and organizations.
- This system provides an efficient way to manage books, members, borrowing activities, and role-based access control, all in a user-friendly and cross-platform environment.

### South Lanka Fireworks Company Website

**Web Developer**  [GitHub](#)

- Designed and developed the official company website for South Lanka Fireworks.
- Built a fully responsive and modern user interface to present products, services, and company information.
- Optimized layout and performance for better user experience and accessibility.
- Deployed and hosted the website, managing domain setup and production deployment.
- Technologies: React, Tailwind CSS, Node.js.
- Tools & Deployment: Hostinger, GitHub.

---

## EDUCATION

Graduate Diploma In Software Engineering

**Institute Of Java Software Engineering (IJSE)**

2023 - 2025 | Galle, Sri Lanka

G.C.E. Advanced Level

**St/Aloysius College**

2019 - 2022 | Galle, Sri Lanka

G.C.E. Ordinary Level

**St/Aloysius College**

2009 - 2019 | Galle, Sri Lanka

---

## ACTIVITIES

- **Senior Prefect** – St. Aloysius College
  - **Student Committee Member** – Institute of Java Software Engineering (IJSE)
-
