PROFESSIONAL SUMMARY

Passionate and detail-oriented Software Developer with strong experience in front-end and full-stack development. Skilled in building responsive web and mobile applications using modern technologies including React, Java, Spring Boot, Node.js, and Flutter. Experienced in enterprise-level systems such as POS, crop monitoring, and library management platforms. Focused on clean UI, scalable architecture, and efficient problem-solving.

TECHNICAL SKILLS

Frontend : React, Next.js, Tailwind CSS, Bootstrap, HTML5, CSS3

Backend : Spring Boot, Node.js, Express.js, RESTful APIs, JWT Authentication

Mobile Development : Flutter, React Native

Programming Languages : Java, JavaScript (ES6+), TypeScript, Python

Databases : MySQL, MongoDB, Firebase

Cloud & DevOps : AWS (EC2, S3), Docker

Tools & Technologies : Git, GitHub, Figma, Canva

EXPERIENCE

Software Development Intern | Sri Lanka Telecom (SLT) | Aug 2025 – Feb 2026

- Developed and maintained full-stack internal enterprise applications, focusing on system efficiency and clean code principles.
- Integrated RESTful APIs and optimized data handling to improve cross-system communication.
- Collaborated in an Agile environment to debug issues, implement new features, and enhance application stability.
- Utilized version control and industry best practices within structured enterprise-level workflows.

PROJECT EXPERIENCE

South Lanka Fireworks Company Website [GitHub](#)

- Designed and developed a responsive e-commerce showcase using React, Tailwind CSS, and Node.js.
- Managed deployment via Hostinger and GitHub, ensuring 99.9% uptime and smooth production performance.
- Boosted website performance by 20%, resulting in a 25% increase in customer inquiries.

Crop Monitoring System – Green Shadow (Pvt) Ltd [GitHub](#)

- Developed an enterprise-level full-stack application to streamline crop, staff, and vehicle management.
- Implemented Role-Based Access Control (RBAC) and a structured MySQL database for secure data tracking.
- Reduced manual data handling by 30% and improved operational efficiency by 25% for 500+ records.

Library Management System (Web) [GitHub](#)

- Built a comprehensive web system using TypeScript and MySQL to automate book tracking and borrowing.
- Reduced borrowing processing time by 40% through optimized backend workflows and user-role management.
- Improved overall system data accuracy by 30% while supporting over 100 active users.

Book Store / Library Management App (Mobile) [GitHub](#)

- Developed a cross-platform mobile application using Flutter for real-time library resource management.
- Designed an intuitive UI that improved user engagement by 20% and supported 100+ active users.
- Automated manual library processes, reducing administrative overhead by 35%.

EDUCATION

BSc (Hons) in Software Engineering (Top-up) | ICBT Campus, Galle
2026 – Present

Graduate Diploma In Software Engineering | IJSE, Galle, Sri Lanka
2023 - 2025

G.C.E. Advanced Level | St. Aloysius College, Galle, Sri Lanka
2019 – 2022

ACTIVITIES

Senior Prefect | St. Aloysius College

Student Committee Member | Institute of Java Software Engineering (IJSE)
